SCAQMD Comments:

*Emission Reduction Plan for Ports and
Goods Movement in California*

April 20, 2006

Peter Greenwald

Senior Policy Advisor, South Coast Air Quality Management District

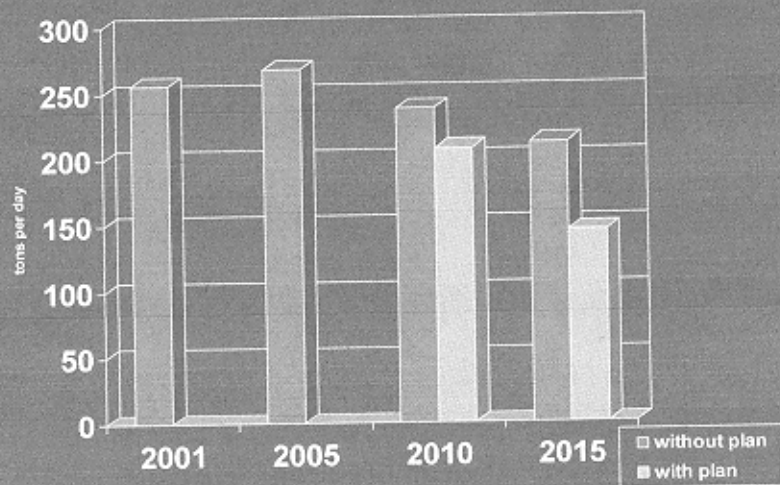

1

SCAQMD Comments

- Support Adoption of Plan
- Develop Implementation Schedule/Responsibilities
 - Specificity as in SIP
 - Utilize State & Local Authorities to Maximum Extent Possible
 - Do Not Wait for Federal or International Controls
- Plan Goals:
 - Year 2010 Goal Should Reflect Implementation of Plan Measures, Not Just 2001 Baseline . . .

South Coast PM Emissions With & Without Plan

4

Comments, continued

- Include Goal of Achieving Acceptable Health Risks from Toxics Near Ports, Railyards, etc
- During Plan Implementation, Strengthen Measures as Much as Possible
 - E.g. Main Engine Fuel Sulfur Limit
 - Incorporate Control Measure Advances by Ports, Source Operators, Air Districts, etc.
 - AQMP May Require Additional Reductions
